History: This message has been replied to.

Dear Cynthia:

Per your request over our phone conversation minutes ago, the following is the information re. Perchlorate assessment that we have been using for our Ambient Groundwater/Surface Water Monitoring Program.

EPA Method 314.0 for Perchlorate analysis in water and the corresponding Minimum Reporting Limit (MRL) is 2.0 µg/L.

If you have any question, please feel free to contact me.

Sincerely,
Wang Yu
